RE: North Shore Mosquito Abatement District
NPDES Permit No. ILG870088
Notice of Coverage under the Pesticide Application Point Source Discharges General Permit

Permittee:

The Illinois Environmental Protection Agency has reviewed your NOI and determined that the pesticide application discharges described therein are appropriately covered by a General NPDES Permit issued by the Agency. A copy of the General Permit is enclosed.

The General Permit includes discharge limitations, monitoring, and reporting requirements. Failure to meet any portion of the permit could result in civil and/or criminal penalties. The Agency is ready and willing to assist you in interpreting any of the conditions of the permit as they relate specifically to your discharge.

The Annual Report must be submitted to the Agency no later than February 15th of the following year for all pesticide activities covered under this permit occurring during the previous calendar year.

The permit is applied to your discharge effective on the date of this letter or as identified by the conditions of the Permit. You have the right to appeal the Agency's decision to cover your discharge by the General Permit to the Illinois Pollution Control Board within a 35 day period following the date of this letter.

This letter shows your NPDES Permit number, please reference this number in all future correspondence. Should you have any questions concerning the Permit, please contact Jane Churchill at 217/782-0610.

Sincerely,

Alan Keller, P.E.
